PRESENTERS CONTINUED

1:30-2:00 – Leslie Nance CHCC, CHN

"Holistic Ways to Outsmart Cancer Before It Starts"

In this engaging and empowering session, Leslie will share five impactful holistic practices for cancer prevention—two that may already be on your radar, and three that most people overlook entirely. We'll explore the deeper role of environment, emotion, nutrition, and energetic alignment in helping the body become an inhospitable place for disease. Attendees will leave feeling informed, inspired, and equipped with clear, actionable tools to support long-term health and vitality.

2:00-2:30 – Donna Beavers

"Bees Heal In More Ways Than Honey"

Apitherapy is the practice of using bee-derived substances for therapeutic purposes. It includes therapies utilizing honey, propolis, royal jelly, pollen, bee venom and more. From soothing sore throats with raw honey to harnessing propolis's natural antibacterial properties, apitherapy offers a fascinating, natural approach to wellness that has been valued in traditional medicine for centuries. Discover the science and stories behind these golden gifts from the hive and how integrating them into your routine can nurture both body and mind.

2:30-3:00 – Patricia LaDale Lane, BMSc, ICRT LMRT

"Reiki Chat"

Join Pattie Lane in an informal question and answer discussion where the topic is all about Reiki – a Japanese relaxation technique that also promotes healing.

3:00-3:30 – Dr. Jason Dixon, D.C.

"Awakening your Cosmic Current - Activating the Conduit of Source Within You"

Most of humanity has forgotten the current of life flowing through us, closing down the flow of the very Source that sustains our being. Yet within you lies a luminous system, designed to channel the energy of love and vitality. In this interactive class, we will awaken that system, dissolve the blocks of disconnection, and remember together what it means to be a living conduit of Source. Come ready to open, to expand, and to let the cosmic current move freely once more.
